

CONTAINER UNSCRAMBLER

RNA Feed Systems

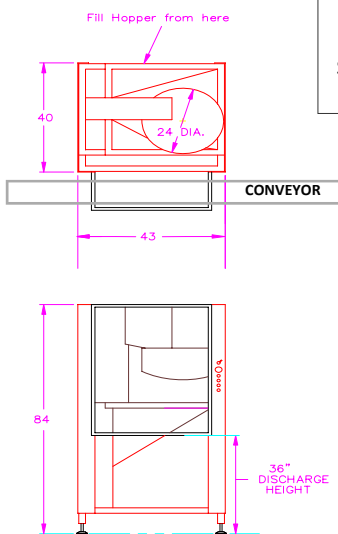

Footprint as small as 40"x43"
This includes the bulk hopper!

**PHARMACEUTICAL, DAIRY, FOOD, BEVERAGE
DETERGENT, MEDICAL DEVICES, HOUSEHOLD
& COSMETIC INDUSTRIES**

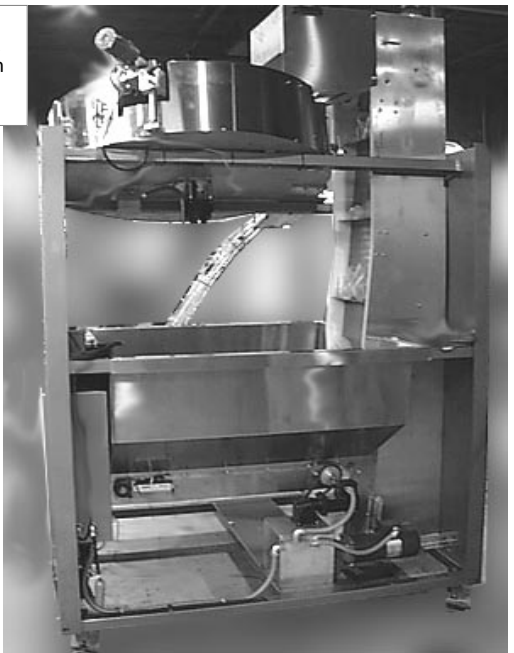

Product Features

- > HOPPER/ELEVATOR is inside the feeder's frame. Everything is on the one frame.
- > Uses our proven "Starwheel" orientation system for consistent and accurate bottle discharge.
- > FIXED CHANGE PARTS make for easy and accurate changeovers. Just a few simple adjustments. All of the orientation takes place in the change parts.
- > TOOL-LESS CHANGE OVER.
- > SAFE TO OPERATE, SIMPLE TO MAINTAIN, & EASY TO UNDERSTAND.
- > Discharge onto conveyors & ramps, or directly into star wheels, pocket wheels, timing screws, and pucks.
- > Bottle contact points are of FDA approved materials, mostly stainless steel.
- > Auto-reversing Pre-sorter and multi-purpose sensors make for trouble free and technician free operation.

Model P-2-H
Guard doors protrude over your conveyor.
Same layout for either discharge direction

Rear view showing Bin & Elevator within the feeder's frame
