

# RNA Lifecycle Services

We handle it.

The RNA brand is renowned for delivering unparalleled customer support. We have a team of highly skilled service engineers with decades of experience in automation, ready to promptly address customer service or maintenance needs. We are also able to offer tailored preventative maintenance and service packages to extend support for systems beyond their original warranty period.

## Keeping your Feeding Systems Performance at their Best

*Comprehensive lifecycle services to extend equipment life and reduce downtime*

RNA Lifecycle Services are designed to maximise your success throughout the entire lifespan of your feeding, handling & automation Equipment.

Drawing on decades of expertise in vibratory feeding technology, RNA provides a comprehensive service portfolio including bowl feeder **relining**, **refurbishing**, **spare parts** supply, and preventative and corrective **servicing**.

## Why Choose RNA?

From extending equipment life and restoring feeding performance to reducing unplanned downtime, RNA helps you protect your investment and maintain consistent production.

By choosing RNA Lifecycle Services, you benefit from **specialist engineering knowledge**, **high-quality materials**, **responsive support**, and a **trusted partner** focused on keeping your operations running efficiently, reliably, and cost-effectively.

# OUR SERVICES

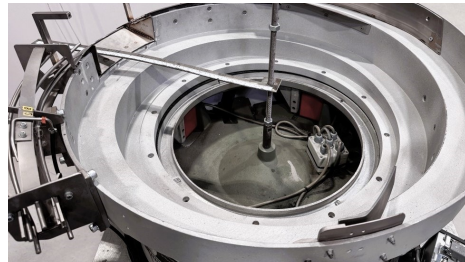

Expert support across the full equipment lifecycle

## Bowl Feeder Relining

**Restore Protection. Extend Life. Improve Reliability.**

RNA restores feeding performance and extends bowl life through precision relining with high-quality polyurethane materials.

## Refurbishing

**Full Performance Restoration Without Buying New.**

Bring your ageing or underperforming bowl feeder back to peak efficiency with RNA's comprehensive mechanical and functional refurbishment service.

**When Should You Use RNA Lifecycle Services?**

### Signs You Need Support:

- Decreased feed rate or performance
- Increased noise or vibration
- More part jams or misorientation
- Bowl feeder older than 3–5 years
- Damage to lining or tracks
- Operator reports instability
- Sensors mis-triggering
- Missing recommended spares

## Spare Parts

**OEM Spare Parts for Maximum Uptime.**

RNA provides reliable spare parts to ensure consistent performance across your Feeding, Handling & Automation Equipment. Our spares support planned maintenance and rapid response to unplanned issues.

## Servicing

**Expert Servicing to Keep Your Production Running.**

Professional servicing helps maintain reliable operation and consistent feeding performance over time. Planned and reactive service support reduces downtime and extends the working life of your equipment.

### We are certified by:

- ISO 9001:2015
- cTUVus Certification
- SafeContractor Accreditation
